

Artemas - Sink or Swim Artemas

I, think we're falling in love

Don't you feel it?

Starting to believe it

You

Yeah you're making it tough, i need a minute

This is sink or swim

Sweating up and down when you're next to me

Next to me

Course it has effects on me

Then darling i'm the problem, i'm not hard to please

But when you're next to me

Oh it's a recipe

And if we took a shot would you chase it

And if we had a moment could you face it

'cause if i had the chance i would take you there

I, think we're falling in love

Don't you feel it?

Starting to believe it

You

Yeah you're making it tough, i need a minute

This is sink or swim

I, think we're falling in love

Don't you feel it?

Starting to believe it

You

Yeah you're making it tough, i need a minute

This is sink or swim

Love it comes around when you least expect

Least expect, no i don't have no regrets

Hits you in the face so you don't forget

How could i forget the moment you took off your dress

Ooooooooo

I'm ready to go ooooooooo

I'm 'bout to explode the night away

Like a tidal wave

I'm just waiting on you, yeah

So when i take my shot will you chase it

And if we had a moment could you face it

'cause if i had the chance i would take you there

I, think we're falling in love

Don't you feel it

Starting to believe it
