

DaVan Official - Can't Fix You

You can call me Harley

I don't need you, no, no, no

I don't want you, no, no, no

That's facts

All the love and the drugs can't fix you

I popped a 10 then a 30 to forget you

You've been all on my mind since I left you

Now I'm left in the dust so it's fuck you

All the love and the drugs can't fix you

I popped a 10 then a 30 to forget you

You've been all on my mind since I left you

Now I'm left in the dust so it's fuck you

Swollen my eyelids, I've been crying again

Taking medicine so the pain will end

Do you see the trend? I just want to forget

But I got pain in my chest like cardiac arrest

God damn got me feeling stressed

Depression isn't the best but I gotta put it all in the past

Uh-huh, uh-huh, uh-huh, uh-huh

Put it in the past, put it in the past

All the love and the drugs can't fix you

I popped a 10 then a 30 to forget you

You've been all on my mind since I left you

Now I'm left in the dust so it's fuck you

All the love and the drugs can't fix you

I popped a 10 then a 30 to forget you

You've been all on my mind since I left you

**Now I'm left in the dust so it's fuck you
