

Rustage - KAMI

{chorus 1}

They wanna talk but they ain't gonna harm me

Roll right through with the green wasabi

I do it big, tsunami

Man, i feel like a kami

Spit so sweet but the flow umami

They just mad that they late to the party

I do it big, tsunami

Man, i feel like a kami

Man, i feel like a-

Tell me they wanna talk but they ain't gonna harm me

Roll right through with the green wasabi

I do it big, tsunami

Man, i feel like a kami

Spit so sweet but the flow umami

They just mad that they late to the party

I do it big, tsunami

Man, i feel like a kami

{verse 1}

Don't deserve to share in my greatness

Every track i make is so sacred

Them just facts, they can't be debated

I got men amending their statements

Go complain and say i ain't made it

On their page but state that they hate it

So ashamed my name on their playlist

Claim that "rustage been overrated"

Huh?!

Rather be overrated than you

Ain't got the dps to get through

Sick of their own debating
I'm gon' leave 'em waiting
Got important work to tend to
You're on my land and now the rent's due
We order off of different menus
Wasting their money on studio time
But can't beat the beats i made in bedrooms
{chorus 2}

They wanna talk but they ain't gonna harm me
Roll right through with the green wasabi
I do it big, tsunami
Man, i feel like a kami
Spit so sweet but the flow umami
They just mad that they late to the party

I do it big, tsunami
Man, i feel like a kami

I feel like a kami

Ay!

I feel like a deity, ah

I feel like a kami

Ay!

These rappers all pray to me, ah

I feel like a kami

Ay!

I feel like a deity, ah

I feel like a kami

Ay!

So what do you wanna say to me, ah?

{verse 2}

I ain't gonna sympathize
When they gon' put up their walls like they mr. mime
Ain't ever impolite, i do it business-like

But i'm gon' ride for that green like the district line
So sick of these kids online
Be lacking wit or rhymes
They making leapfrog music like it's fisher price
Talk big, but they ain't worth a kilobyte
I've got so little time
So i gon' max out the bank but i spent no rubies
Good with my words, not a dent on suzy
Man wanna talk but he went all moody
Say that he close but he never knew me
Ha, they wield a pen so loosely
Got more blocks than the lego movie
Losing their head like louis
I got my crew on the deck like luffy
{bridge}
So decent
Check my steam, i got bare achievements
Get at me and then air my grievance
Peasantry, they gon' swear allegiance
What you say is treason
God or not, you gon' face your demons
I broke the scales and i made them even
So i guess i gon' stay repeating

{chorus 1}

Tell me they wanna talk but they ain't gonna harm me
Roll right through with the green wasabi
I do it big, tsunami
Man, i feel like a kami
Spit so sweet but the flow umami
They just mad that they late to the party
I do it big, tsunami
Man, i feel like a kami

I feel like a kami

Ay!

I feel like a deity, ah

I feel like a kami

Ay!

These rappers all pray to me, ah

I feel like a kami

Ay!

I feel like a deity, ah

I feel like a kami

Ay!

So what do you wanna say to me, ah?
