

ericdoa - its not a phase mom

{Intro}

(I know, I don't ever, oh-ah, ooh-ooh)

(No, I don't ever, oh-ah, oh-oh-woah)

{Verse}

Yeah, I've been going through phases (Oh-woah)

I know damn well you afraid of me changing (Ayy)

What you want, baby? We can make arrangements

Send location, tell me where you staying

Work from nine to five, hate your social life

Won't act civilized

{Chorus}

So please don't talk to me

I been trying to forget what you brought to me (Brought to me)

It keep getting harder to think logically (Logically)

You want me to do better

You know that it's only be me

Won't give it to just whoever
