

Michael Hakim - Beirut Baby

{Verse 1}

**She a Beirut baby, most beautiful thing i've ever seen
See her from time to time, every time I fly overseas
But I know she's searching, searching for more
Meet up in Tripoli, where the waters blue like Tiffany
And i've been gone for a long time but, she can picture me
I'll make it worth it, lemme come into your life i'll give you purpose**

{Chorus}

**She a Beirut baby
I know she got it locked and loaded
When we make contact, she always knows all of my motives
She a Beirut baby, when I look at her I'm losing focus
And in the night time, in the night time both her eyes turn golden**

{Verse 2}

**Tryna bottle this feeling up forever
(forever, no forever)
Put my hands on your body, cause I can't settle
'Fore anything less, lemme go to your place put you up to the test
Lay you down on the bed, lemme handle the rest
Started off slow girl nice and simple
But the things i've given you's only a sample
Life is better when i'm around you
And she dangerous but I think I can handle**

{Chorus}

**She a Beirut baby
I know she got it locked and loaded
When we make contact, she always knows all of my motives
She a Beirut baby, when I look at her I'm losing focus
And in the night time, in the night time both her eyes turn golden**

{Outro}
