(Woo)

{Verse 2}

Fuck it, with a photo model I can show like a shawty whoa

When running with 66 steps. money, mo

Get it like a star and get 20 visions whoa

Voice in my head, I can laugh like a demon, no

Freemasons are back, with more cases 22

Trying to attack, in the context of money too

I can go back to check with my past to kill too

Graphics have impact with text rendered all in you

Demon routing in my brain by floating with burns

Every chance I get, I want to confirm feelings in turn

I turn left again with the car and money, moon

After life ends. You will never go back to the moon
