

# Logy1 - I'm a millionaire

{Intro}

2 million dollar packet

I want millions in my project

I want a million dollar jacket. Yeah

Yeah

Yeah

{Verse 1}

Now there is a way out, I'm walking in heaven for a day

I got my chance with a fake story. You have all the thoughts to pay

Open, close with a private jet, can't complain about all my day

Living with money in front of me, my life has said

Get a black card in the car like a wanna trick, can play

Satan's been trying to get my soul lately. Get it away

Fuck it, he could have said it all. I answer what you said

I will change the phobia. Monarchists, fuck you say

{Chorus}

2 million dollar packet

I want millions in my project

I want a million dollar jacket. Yeah

I got a few million checks

I'm a millionaire with profits

I'm a millionaire with checks. Yeah

{Verse 2}
