

Jaden - Hello

{Intro}

Huh, hello (Hello)

Eh, hello (Hello)

How you doing there?

Hello (Hello)

Like, hello (Hello)

{Verse 1}

Like hello, my name is Jaden and I am a young fellow

I like to keep it mellow, I like to make friends and make trends

Attend young school dances, young romances

Girl, this is your chance, it's a long shot (It's a long shot)

Cupid tried to hit your bow but it's the wrong shot (Wrong shot)

Because I'm tryin' to rock the mic and no I won't stop

I'ma keep rappin' 'bout this love until the song stops (Song stops)

'Cause we're just young and dumb and numb

And lung capacity flung from me in the last city

Um, hon? You one of the last pretty girls that ain't cash greedy

Models that's mad skinny

You was that bad, picky, girl that's a vegetarian

Who hated the movies and loved to go to aquariums

And she would just stare at it barely feeling embarrassed

She put the 'matic in charis', who'd randomly fly to Paris likeâ€”

{Chorus 1}

Hello (Hello, hello)

Eh, hello (Hello, hello)

How you--, eh

Hello (Hello, hello)

How you--, eh

Hello (Hello)

Hello

{Verse 2}

**Greetings this eveningâ€”hi, my name is Jaden
These girls are just so deceiving
They see me, they don't believe I'm a minor
Well I don't have any gold and all the records I've sold
They thinkin' I'm really old but
No, I'm a teen, I'm still keeping it clean
I'm having meetings with deans
You see me up on the screen, like
Hello, I'm doing this scene, a mean fighting machine
And still keeping it lean, like woah
What does this mean? I'm seen in all of these places
My sister just got her braces
My MSFTS is breaking bases, it's crazy
My clique's the top of the notches
Fans always tryna wave, so Moises is getting noxious
We at the shows, tryna make a mosh pit
Living life so exotic, I'm not tryna be obnoxious
And we tryna to paint so now we go into Josh's
Now we tryna go skate, we strappin' on all the costumes like**

{Chorus 2}

**Hello (Hello, hello)
Man, hello (Hello, hello)
Hello (Hello, hello)
Uh, man, hello
Hello**

{Verse 3}

**They say Jaden your vocals is so cool
Shuttin' jokers down as soon as your clique rolls through
Man, we bringing back the old school
If I could, I'd do this without pro tools**

Huh, but this is just a intro

Listen up homie if you want some info, I got some details

Sellin' jokers out like they was some retails

Couple taxes and emails, talkin' a lot about females

Hope that doesn't concern you

Wanna come up and battle

Well homie, I'ma just burn you

But you gon' learn to respect it

You want a real emcee, then check this

Done, MSFTS
