

Jaden - Cries

{verse 1: jaden smith}

Life is slow motion

And i'm swimming in the ocean

When i'm next to you

If im not with you then i'm texting you

Cause i miss you

It's like sparks when i kiss you

Girl, what's the issue?

We're fighting again

In the studio i'm writing again

Make it rain, cause it's lightning again

Video doing lighting again (jeez)

Breaking up, i was frightened again

Get in trouble, i was lying again

I don't really know where the ground is

And i don't really know what a noun is

Cause i don't go to school and i'm hanging with some foolish kids

That be chillin' at the movies

I never really truly met you

I'm romeo, you'll be my juillet, boo

Look so good in the dress you wore

You looks so cute in those glasses

You said i look good in that vest that i wore

Tell me when you get out of your classes

**Cause seeing you around, and all my friends tell me that you go to calabasa
s high**

**And i stare up in your eyes and i don't know why, i stare longer than your
lashes**

**I think, i could write a couple songs cause this stuff is straight out of a
movie**

I could get lost in the music, but baby please don't lose me

{hook: purity ring}

Bring, bring the thunder

And the loud, loud rain

(please, please don't lose me)

Lead our walls asunder

'neath the proud, proud veins

(please, please don't lose me)

Of traits that bleed the gunmen

Of our pumping, earthly hearts

(please, please don't lose me)

Ween our joys in plunder

Feel our shining teeth

Bet our hold on happiness

(please, please don't lose me)

{verse 2: jaden smith}

Girl hold me when you can

Cause this love is not as strong as it was

Cause you're making a fuss over nothing

And you know it stays right in my trust

I remember you would blush

Now you stay using your blush

Just because we keeping us on a hush

Girl there's no reason to rush

Just forget it, you did it, your love is so acidic

You're gonna put me in your clinic, i admit it

And it burns when we keep taking these turns

Had a few concerns for a minute you be tripping

Don't understand why you keep changing your plans

White socks, but you're not rocking no stance

Put on my hand, and you still don't wanna dance

And you not playing my jams (wow)

I put my foot up on the break, girl we made mistakes, we should probably ta

ke a break

All the songs i make are just only for your fate

And you stay playing your drake, i don't think i'll take this

No more, you bore me

Wake up in the morning

And i need a new story, sorry

Nine o'clock date and i showed up tardy

And i'm hardly

The same kid from last october

Msft soldier

Got a little older, got a little colder

For

The better, whatever

People say i'm clever

So i hope a few endeavors

Hope we're not together just so we can feel this pleasure

And our hearts you couldn't sever

And i hope you know i love you forever

{hook: purity ring}

{outro}

Please, please don't lose me

Please, please don't lose me
