

Pureojuice - Sukuna and Mahito diss

{Intro}

**The next words that spilled from my lips came from so deep in my gut that it
t nearly made all the things I've ever said feel like a lie
I will kill you!**

{Chorus}

**He thought he was immune in get back season
He started sneezing when it got freezing
("aaah") Music to my ears
I wanna get sturdy to his screaming
Look how the turns have tabled
Predator turn prey, you created a demon
I can't deny I'm you
Wherever you reincarnate tryna stop your breathing**

{Verse 1}

**Lifes been tragedies on tragediDµs
Junpei Nobara and Nanami
I feel like I killed thDµm myself
Coz I'm way to weak to defeat my enemies
Perfectly powerless protagonist
My hearts been ripped right straight outta me
Geto's a bitch I suffered more still didn't turn bad and lose sanity
A cog in the machine nothing special
A soldier on the frontline
Naive to think that we're the good guys
We're the same coin just differant sides
Us or them gotta chose who you rep, So I sorcerer step
No talk no jutsu, fuck Naruto
It's on sight, like choso, blood gon shed**

{Chorus}

**He thought he was immune in get back season
He started sneezing when it got freezing
("aaah") Music to my ears
I wanna get sturdy to his screaming
Look how the turns have tabled
Predator turn prey, you created a demon
I can't deny I'm you
Wherever you reincarnate tryna stop your breathing**

{Verse 2}

**Divergent fist delay the impact
You ain't ever concentrate to the max
Then back to back you're landing black flash
No cursed technique
Left right goodnight
My physicality like a heavenly pact
Me and bro in sync like we choreographed, tryna catch us a heavenly pack
Jump jutsu kaisen
Fuck a fair fight I'm not doing it solo
Brother!
Lost spirit to fight, I wanted to die
I swear I had no hope
Clap
Put you anywhere on the map
Everyone needs a friend like todo
My dead friends entrusted me
So I can't go, sprung back like a yo-yo**

{Chorus}

**He thought he was immune in get back season
He started sneezing when it got freezing
("aaah") Music to my ears
I wanna get sturdy to his screaming**

**Look how the turns have tabled
Predator turn prey, you created a demon
I can't deny I'm you
Wherever you reincarnate tryna stop your breathing**

{Verse 3}

**Pedo
Obsessed with kids
Keep him away from Megumi
King of the curses
You mean homeless bumb
He lives in my head rent free
Ain't no one immune in get back season
They musta forgot that I'm the MC**
