

Foxfredito - Money

Money

Dressing

Spending

That's a recipe for getting people saying hey men

Now everyone will be there

Now She will look your way now

But maybe that ain't so bad

Till you are left standing alone

Money

Dressing

Spending

That's a recipe for getting people saying hey men

Now everyone will be there

Now She will look your way now

But maybe that ain't so bad

Till you are left standing alone

They'll smile

When you're not funny

But that money in your pocket looking good

Fake friends will be all around

Spawning over here

Spawning over there

It be funny how none will be around

If the money goes down just a tad bit

Getting supper cars

Getting new mansions

It's a brag that they know you

7 days I've been cooking

Always fresh I can't be losing

I'm a witness flavored salt of the earth

On Mondays

Wednesdays &

Sundays

A full meal all the ladies wanna give me a holiday

They want a

'drop your pants day'

My fragrance getting them crazy

Money

Dressing

Spending

That's a recipe for getting people saying hey men

Now everyone will be there

Now She will look your way now

But maybe that ain't so bad

Till you are left standing alone

Money

That's a recipe for getting people saying hey men

Now everyone will be there

Now She will look your way now

But maybe that ain't so bad
