

## **Pureojuice - Special Z Freestyle**

**{Verse 1}**

**I'm Maki- I'm Maki with the stick  
I really don't miss  
I'm gauranteed hits like a domain  
I don't care about their age  
Opps get touched like Mei Mei  
Reunite them with Junpei  
Or- Or- Or I'm mr left right goodnight  
Combos hit like a AK  
Body shot make man body pop milly rock  
Turn to a dancer and hit the Nae Nae**

**{Chorus}**

**Lean Sorcerer Step  
Left right right and then left  
Woulđa thought his boy was Megumi's dad  
The way he ran off and left his friend  
Lean Sorcerer Step  
Left right right and then left  
If you're usĐϖless like broom girl  
You get put on thĐϖ bench**

**{Verse 2}**

**Asparagus Hanami got put back in a backwood  
Free Gojo till it's backwards  
Menace, I'mma still shoot if the opps wanna hide in the crowd like cowards  
Gotta lot to say but turn to Toge  
When I say band for band it gets awkward  
Talking tough, but I treat them like Yuta  
I know there a bitch inside with tantrums  
AMG gets whipped like Megumi**

Driving that shit like I really don't love my life  
We make their block hit Shibuya  
Mechamaru they don't come outside they hide  
So we found out where their head lie  
Make batteries die  
Throw up the wrong hand signs  
Last thing you'll hears ryokki tenkai  
Nobara they didn't react in time  
I'm big Raga the opp stoppa  
Weapons against me won't prosper  
Think that I'm Sukunas new vessel  
Malevolent thoughts saying go murder  
Pissed that we couldn't find him, so we Choso'd him and killed his brother  
Skududu  
Push wigs back like Suguru  
Left his face missing like Haruta  
Like Todo I love me a jiggle back  
But not talking bout that when I let it clap  
Nanami got burst like bubble wrap  
Can't let that slide till their in a pack  
Sheisty Sorcerer when you see the mask  
I'mma do way more than double tap  
Mix red and blue put a switch on hollow purple  
And turn blocks to Chiraq  
I'm Mahito I embody hate  
One touch from me you'll Levitate  
No emapthy  
I'm a curse to the opps I catch a pack and celebrate  
I love taunting dead affiliates  
Don't feel a way  
Their pain makes my soul elevate  
Must have that Jogo disease tryнна beef with me  
All you see is Heaven's gate

**{Chorus}**

**Lean Sorcerer Step**

**Left right right and then left**

**Woulda thought his boy was Megumi's dad**

**The way he ran off and left his friend**

**Lean Sorcerer Step**

**Left right right and then left**

**If you're useless like broom girl**

**You get put on the bench**
