

Pee ShorÃ©z - Stealth Affair

{Verse 1: (3x)}

**You can't tell me we ain't made for each other
That's right, momma, that's on my mother
I give good head like no other
I'm done acting like I'm your brother**

{Verse 1:}

**That's your problem, you're judging a color
Making me feel like we can't go further
You won't find you another brother
You're in trouble, you have to suffer
On my cousins, on my brothers
On my sister, did I stutter?
That's your problem, you're so damn stubborn
That's your last name and you as a person
Might be something to it that serves us a purpose
Feel like something missing, there should it bÐµ in cursive?
I don't feel like talking to customer sÐµrvice
More cooperation, don't be so nervous
Baby when I'm with you, I'm a changed person
I ain't playing with you, I just changed as a person
Might be picking with you but I bet that it's working
Might be chilling with you but I bet you start twerking, yup!**
