

MaGyverMIRE - A letter to my future self

{Verse 1}

Man

I stayed hard and I'm living my life
Focused on the things that keep me alright
Some people wanna see you lose your vibe
Everybody is insane, it's the Stone Age times
That's right and you're making it love
How many times did they try to put you down?
Looking back, now they are living 4-5
Your timeline already passed 35
And I'm looking back, on how I survived those times
Everybody was laughing, now they are bowing
Take it to God, I don't want your Karma
Now you see my light and I'm shining so brighter
Reading the Bible, why Cain kill his brother?
I fear no man, but God instead
I'm a number 10, now they'rĐµ targeting me ayy

{Hook}

I stayed hard and I'm living my lifĐµ
Focused on the things that will heal my soul
Some people wanna see you gone, that's sad
Everybody is insane, it's the Revelation times
That's right and you're making it love
How many times did they try to put you
Looking back, now you're living your
Your timeline already passed 35 x2
