

## **Alli Cazaam - Forget Not Our Soles**

**To those with weary hearts  
I sing these simple words to you**

**May we all find our way home  
Even when the road is it's darkest**

**You can't be nothing if you are everything  
You can't be nothing if you are everything**

**Father  
Forget not our souls  
We're so far from Heaven**

**Will the flowers still grow  
If we stop loving them**

**When this world has turned cold  
Please give us compassion**

**Flow a river of hope  
So that we may understand**

**Let your love overflow  
And comfort thĐµ weary ones  
Will the flowĐµrs still grow  
If we stop loving them**

**When this world has turned cold  
Please give us compassion**

**Will the flowers still grow**

**If we stop loving them**

**When this world has turned cold**

**Please give us compassion**

**Flow a river of hope**

**So that we may understand**

**Let your love overflow**

**And comfort the weary ones**

**Will the flowers still grow**

**If we stop loving them**

**When this world has turned cold**

**Please give us compassion**

**Flow a river of hope**

**So that we may understand**

**You can't be nothing if you are everything**

**You can't be nothing if you are everything**

**You can't be nothing if you are everything**
