

odihi - i wish i wasnt a loser so u would like me

{Intro}

**odihi is a fat fucking loser and gets no bitches
He should fucking kill himself immediately**

{Verse}

**Never again, never again
Tried so damn hard, never learned my lesson
But you so damn goddamn perfect
I just feel it all again
Wish I wasn't a loser so you would like me
Heartache so bad, feel like you bite me
Doin' so much crying as I'm typing
Got so depressed, I feel like dyin'**

{Chorus}

**Don't know if I'm trying hard enough
I just wanna get rid of my bluff
Social anxiety, I feel stuck
Just wanna go out and find some love
I feel so sad, why am I alone?
Wish I had, "Good morning," texts on my phone
Need to find a new way to cope
Goin' down to the forest with my rope
Don't know if I'm trying hard enough
I just wanna get rid of my bluff
Social anxiety, I feel stuck
Just wanna go out and find some love
I feel so sad, why am I alone?
Wish I had, "Good morning," texts on my phone
Need to find a new way to cope
Goin' down to the forest with my rope**
