

## **Gothic Psychology - Leave**

**(verse 1)**

**Oh, my loving soul  
With a heart that's bound but full of holes  
I hold you close every day  
But the fear inside won't go away  
In our cozy home, we reside  
Yet doubts creep in, i can't hide  
I hope you find your peace of mind  
Even if it means leaving me behind**

**(pre-chorus)**

**In the silence of the night, i hear your sigh  
A gentle breeze, a whispered goodbye  
Yet in this moment, love, i'll still believe  
That someday, somehow, you'll return to me**

**(chorus)**

**But, my darling, don't you see?  
You're my world, the air i breathe  
I'll cherish you until my final breath  
But if you're not happy, you're free to leave**

**(post chorus)**

**You're free to leave  
Leave  
You're free to leave**

**(verse 2)**

**And in your eyes i see a far off gaze  
You're asking for something beyond these days  
Am i enough to keep you satisfied?  
Or do you want what's on the other side?**

I won't hold you back, i won't confine  
If your heart desires a different line  
Though it breaks my self, i'll let you go  
If that's what you need to truly grow

(pre-chorus)

In the silence of the night, i hear your sigh  
A gentle breeze, a whispered goodbye  
Yet in this moment, love, i'll still believe  
That someday, somehow, you'll return to me

(chorus)

But, my darling, don't you see?  
You're my world, the air i breathe  
I'll cherish you until my final breath  
But if you're not happy, you're free to leave

(post chorus)

You're free to leave  
Leave  
You're free to leave

(bridge)

The future's uncertain, love, it's true  
I'm scared of losing what i had in you  
But i'll set you free, if that's your plea  
And i hope someday you find your way back to me

(verse 3)

In the echoes of our shared history  
A love that once was, now a mystery  
I'll navigate these shadows alone  
As you embark on paths yet unknown  
Through the tears and the silent cries

**I'll hold onto the memories, not goodbyes  
In the tapestry of time, we weave  
Separate threads, yet still believe**

**(pre-chorus)**

**In the silence of the night, i hear your sigh  
A gentle breeze, a whispered goodbye  
Yet in this moment, love, i'll still believe  
That someday, somehow, you'll return to me**

**(chorus)**

**But, my darling, don't you see?  
You're my world, the air i breathe  
I'll cherish you until my final breath  
But if you're not happy, you're free to leave**

**(post chorus)**

**You're free to leave  
Leave  
You're free to leave**

**(outro)**

**But oh my loving soul  
Please don't leave me  
If it's what you want to do**
