

Gothic Psychology - Lost Walkers

{verse 1}

Black sand under my feet
We'll never collide or meet
Glowing eyes white teeth
For it for me for us
We wander on
Until the dawn
Our hearts have stopped
They're frozen in place

{Chorus}

We walk along
To this song
We've Been gone
But for how long
We walk along
To this song
We've Been gone
But for how long

We walk along
To this song
We've Been gone
But for how long
We walk along
To this song
We've Been gone
But for how long

{verse 2}

We've become invisible
Our efforts are so trivial

**And no one wants to be a friend
Waiting for this to finally end
And we're all so hopeless
You make me so lost
And we walk on forward
Til the end of time has passed**

{Chorus}

**We walk along
To this song
We've Been gone
But for how long
We walk along
To this song
We've Been gone
But for how long**

{instrumental break}

{Chorus}

**We walk along
To this song
We've Been gone
But for how long
We walk along
To this song
We've Been gone
But for how long
We walk along
To this song
We've Been gone
But for how long
We walk along**

**To this song
We've Been gone
But for how long**

{outro}

**Black sand under my feet
We'll never collide or meet**
