

Anna Thompson - Alive

{Verse 1}

**Pick up the pieces of broken fragments surrounding me
Now that you're here and now that I've had it I can't leave
You're the reason I broke all of my bad habits babe
You're the key
You gave me life when you gave me status
The air I breathe**

{Pre-Chorus}

**I've been thinking 'bout this so damn long
I've been writing you too many songs
Never got you off my mind**

{Chorus}

**I can't imagine saying goodbye to you babe
Can't even fathom
I think God has our souls tied
By a string
But I know you don't believe in those things
Perfectly aware I could be wrong
But as long as you're alive
I don't think I'm moving on**

{Verse 2}

**Still don't make sense that I manifested the life in me
You're what keeps me going, always the focus
My centerpiece**

{Pre-Chorus}

**I've been thinking 'bout this so damn long
I've been writing you too many songs
Never got you off my mind**

{Chorus}

**I can't imagine saying goodbye to you babe
Can't even fathom
I think God has our souls tied
By a string
But I know you don't believe in those things
Perfectly aware I could be wrong
But as long as you're alive
I don't think I'm moving on**

{Bridge}

**Ain't got no plans on stopping
I think I've finally found him
No way we'll never top this baby
Do you know how good this is?
I'd even go the distance
Please can we go the distance?**

{Chorus}

**'Cause I can't imagine saying goodbye to you babe
Can't even fathom
I think God has our souls tied
By a string
But I know you don't believe in those things
Perfectly aware I could be wrong
But as long as you're alive
I don't think I'm moving on**
