

Gothic Psychology - Pins and Needles

(Verse 1)

**I tried to get a hold of you
But you lost life to the blue
Grinded, inhaled whatever
Can't believe this happened**

(Prechorus)

**I try my hardest to move on
But you're gone and it's hard**

(Chorus)

**We had a whole future ahead
But you could never be strong
And I never asked for a lot
But you owe that to me**

(Post chorus)

**And I never wanted too much
But you're gone just for me
The only reason I'm here
Is because you had the chance**

(Verse 2)

**Everyday I drive past the park
And I remember the times we shared
Even if you're gone forever long
It'll still be part of who I am**

(Prechorus)

**I'm sure one day I'll be happy
But I need that day to be now**

(Chorus)

**We had a whole future ahead
But you could never be strong
And I never asked for a lot
But you owe that to me**

(Post chorus)

**And I never wanted too much
But you're gone just for me
The only reason I'm here
Is because you had the chance**

(Bridge)

**You grab a needle and shoot the shit
It's never about me you just need a hit
But other people have lives and exist
You need to wake up and breathe the air**

(Chorus)

**We had a whole future ahead
But you could never be strong
And I never asked for a lot
But you owe that to me**

(Outro)

**You grab a needle and shoot the shit
It's never about me you just need a hit
But other people have lives and exist
You need to wake up and breathe the air**

**You grab a needle and shoot the shit
It's never about me you just need a hit
But other people have lives and exist
You need to wake up and breathe the air**
