

Skiddelz - Drink A Juice

(Intro: Soupy Garbage Juice)

If you wanna drink a juice, then you're gonna need a cup

If you don't have a cup, then you need to buy a cup

If you wanna buy a cup, then you need at least a dollar

If you don't have a dollar, then you need to find a job

If you can't find a job, then you need to go to school

If you can't afford school, then you need to find a job

If you can't find a job, then you need to go to school

If you can't afford school, then you need to find a job

(Verse 1: Skiddelz)

Sippin' on that juice, got the flavor so sweet

From the morning 'til the night, it's my favorite treat

Got that orange, that apple, that berry blend too

Every sip I take, I'm feeling brand new

Pour it in the glass, watch it glisten in the light

Juicy satisfaction, yeah, it feels just right

No need for the alcohol, I'm on that natural high

With every gulp I take, watch my spirits fly

(Chorus: Soupy Garbage Juice & Skiddelz)

If you wanna drink a juicĐµ, then you're gonna need a cup

If you don't have a cup, thĐµn you need to buy a cup

If you wanna buy a cup, then you need at least a dollar

If you don't have a dollar, then you need to find a job

If you can't find a job, then you need to go to school

If you can't afford school, then you need to find a job

If you can't find a job, then you need to go to school

If you can't afford school, then you need to find a job

(Verse 2: Skiddelz)

Got that pineapple punch, that mango delight

**Refreshing to the core, every sip's just right
Mix it up with some veggies, make it green and lean
Healthy and delicious, like a dream cuisine
No need for soda pop, keep that sugar away
Juice is where it's at, keeps me going all day
Pour it over ice, watch it chill in the cup
Sippin' on that juice, can't ever get enough**

(Outro: Soupy Garbage Juice & Skiddelz)

**If you can't find a job, then you need to go to school
If you're stuck in a loop, then you need to get a loan
If you wanna get a loan then you need good credit
Or I guess, just drink juice from the carton**
