

JamWayne - Sin

{Chorus 2X}

**I was down on my luck
And deep in my sin, in my sin, in my sin
Ain't know which way was up
Feelin' disgusting, rusty
One to the head
I was thinkin' now I'm about to give up**

{Verse 1}

**I know I'm a little different than you like
Done a little more dirt than you have in your life
And you see these tattoos like war wounds
Probably scare you just a little and it's safe to assume
That I haven't always been good and done right
Got a while, so I see it lookin' deep in my eyes
Through blood, sweat and tears barely clingin' the lies
Sinkin' deep in my sorrow suicidal lullabies
Still ringin' in my head, lookin' up to the sky
Thinkin' if Lord hear my prayer, it's gon' be aight
Cause you made for more than this and that, I believe
Just feel likÐµ I've been hidden like a wavin' opÐµn sea**

{Chorus 2X}

{Verse 2}

**Down out then, but now I be up and 'bout it
Obstacles in the way, I found my way around 'em
Pray for brighter days after livin' crazy nights
Makin' plays, howlin' at the Moon, I live a crazy life
On the highway of destruction so I switch direction
Hardened by some bad decisions so I make correction**

Hardened by the enemy so I make preparation

If they get me got some extra funds up in the family safe

So I know my family straight, took the time to stack the paper

So I know my kids and even grand kids got a play

Lots of ? and debt in taxes be two things we can't escape

Know that when it's time for those that you gon' have to make a pay

{Chorus 2X}
