

JamWayne - Until

{Verse 1}

**Been a cold winter lookin' forward to a hot summer
Still ridin' 'round bumpin' Pac's "Dear Mama"
'member when the music used to mean more
Give 'em your best
Make your hair stand up and heart race in your chest
Talkin' 'bout all the way we were livin'
Put the truth out, maybe then they'd listen'
Cryin' in the streets where we're raised
And the struggle's alive
Gettin' hard to escape
And these are troubles of minÐµ
And know we're trouble somÐµtimes
It's all good, try and follow your dreams
And live life the way you should
I've been havin' visions of a place
Where there's no more pain
No rich or poor, we equal, no more hate
No more more envy calls, everything you want you have
Forever smilin' and we never sad, never sad
Find a path to the studio writin' some rhymes
And take the world on one song at a time**

{Chorus}

**Yeah, until the time come meetin' our creator
Live life to the fullest regardless of the haters
The world full of fakes and some phony imitators
So I'm gon' keep it real 'til time to meet the maker
Until the time come, hope you see the light
Cause I've been in the darkness and it ain't nothin' nice
To be alone broken in the world full of lies**

Just prayin' that we make it up to heaven when we die

Until the time come...

{Verse 2}

I was a victim of a dark mind

As a young man I fell addicted to the dark side

Wouldn't playin' man

I struggle for my dreams to stay alive

Only watch the hope vanish

Like a spirit in the sky on the afterlife

Prayin' that their hearts come alive

Though my eyes stay dry cryin' on the inside

You wonder why pride wouldn't let a tear slide

And gettin' high just make them bad times feel right

Until I die

Listen to the noises in my my head

Try to silence evil voices wonderin' what the Lord says

And if he cares, if he does why he'd leave us here

And will he not return if he truly holds us dear

I can see it clear, I've gotta live my life as a soldier

Empowered to help the whole world move closer

Your hour of death will arrive when you breath in your last

Surrender all right before you pass, believe that

{Chorus}
