

Gothic Psychology - Friends Come And Go

(Verse 1)

**I wake up every day to move dust
Such a classic excuse that it's covered in rust
I feel lonelier than the air as
I go out to take the dare**

(Prechorus)

**I'm sick of fate passing by
I feel emptier than the sky**

(Verse 2)

**I lost my last friend today
They keep on running away
Muscle spasms, phantom pains
Losing faster than the trains**

(Prechorus)

**I can't keep running from my problems
My feet on the dashboard, a good excuse**

(Chorus)

**Friends come and go
Lives change every day
People move on forward
But I'm stuck in the past**

(Post chorus)

**I'm scared for what'll happen
When you find somebody better than me
That day keeps on inching closer
I'm falling farther from you**

(Verse 3)

**I keep on blowing up in a cascade
My feelings crumble down and burn away
A path of marigolds inside my brain
My cancer grows inside tar pits of death**

(Prechorus)

**Inches to meters, and I can't take anymore
I don't know what to do**

(Chorus)

**Friends come and go
Lives change every day
People move on forward
But I'm stuck in the past**

(Post chorus)

**I'm scared for what'll happen
When you find somebody better than me
That day keeps on inching closer
I'm falling farther from you**

(Bridge)

**If I keep on thinking this way
Antisocial on my own path
I can't keep running from you
End it sooner than soon can do
Names written on my hand
Amnesiac traced in tempered blue
I can't keep on speaking make-believe
A gift I'm waiting to receive**

(Prechorus)

Two face insipid snakes of fate

I'm still waiting to kill the hate

(Chorus)

Friends come and go

Lives change every day

People move on forward

But I'm stuck in the past

(Post chorus)

I'm scared for what'll happen

When you find somebody better than me

That day keeps on inching closer

I'm falling farther from you

(Outro)

Friends come and go

Friends come and go

Friends come and go

Friends come and go
