**{refrain}**

**Grab scissors and kill the sinner**

**Grab scissors and kill the sinner**

**{verse 1}**

**Hello, hello i'm all the bad things**

**I'm all the pain that sadness brings**

**I never keep a promise, you can't expect a lot**

**I'm trying as hard as i can i've given all i've got**

**(sinner)**

**{chorus}**

**I'm looking out for who i am**

**If i knew by now it'd be easier**

**Tell me all these things instead**

**Just to find out that i'm dead**

**If i want to know what i am**

**I'll be searching for an answer**

**{verse 2}**

**Kill me with a blade that cuts deep inside**

**In memories and photos i'll then reside**

**Nothing has been left to rest**

**I'm still trying to be the best**

**When you wake i go to sleep**

**I've been feeling like a creep**

**I wish i was you**

**Because your so true**

**When i'm so blue**

**Through and through**

**I'm upside down inside my head**

**You're filling up as i pump lead**

**What lead me to do these things**

**I'm the sinner under the dark king**

**{refrain}**

**Grab scissors and kill the sinner**

**No, i'm not going to**

**{bridge}**

**(searching for a home in this void)**

**Man i wish i knew who i was**

**Everyone's lives are so much fun**

**I don't like who you are**

**But i loved who you were**

**(covering me face to remain android)**

**And i feel so lonely sometimes**

**So lonely that no one even cares**

**But i ended up doing this to myself**

**Do you remember who we were to eachother?**

**Everything i loved has been destroyed**

**I hate you all you've got me paranoid**

**{chorus}**

**I'm looking out for who i am**

**If i knew by now it'd be easier**

**Tell me all these things instead**
