

# **Julia Marley - Souls of Steel**

**{Verse 1}**

**Her eyes have seen more darkness than any human should  
His hands have felt his heart that broke when no one understood  
Food on the table just enough for her young child  
She does what she has to do in order to survive**

**{Chorus}**

**And yet you walk by, as if you don't see  
All of the hurting, their pockets empty  
They have a story to tell, if you'll listen  
Might make you savor the life you've been given  
And yet you walk by, as if it's not real  
Can't imagine how a life without a home feels  
Every day's a fight to stay alive, their life's a battlefield  
Shattered souls made of steel**

**{Verse 2}**

**A scar behind his ear reminds him of the time he bled  
Trying to save his newborn son from hate, but he was hurt instead  
Dignity for sale, far from the life that she dreams  
But her story written long before she entered the scene**

**{Chorus}**

**And yet you walk by, as if you don't see  
All of the hurting, their pockets empty  
They have a story to tell, if you'll listen  
Might make you savor the life you've been given  
And yet you walk by, as if it's not real  
Can't imagine how a life without a home feels  
Every day's a fight to stay alive, their life's a battlefield  
Shattered souls made of steel**

**{Bridge}**

**Broken, but they feel**

**Longing to be heard**

**Oh, souls of steel**

**So misunderstood**

**Wanting to be wanted, as anybody would**

**{Outro}**

**So don't just walk by, like they don't exist**

**Do anything you can to make a difference**

**Open up your heart and be an ear that listens**

**We all deserve to feel and know what love is**
