

Skiddelz - UCLA

(Verse 1)

**Rolling through Westwood, yeah, I'm feeling fine
Sun shining bright, soaking up the California vibe
Got my shades on, cruising down Bruin Walk
UCLA, where the dreams begin to rock**

**Students hustling, bustling, chasing their degrees
From Anderson to Royce Hall, we got all the keys
Bruin pride running deep, it's in our DNA
From the dorms to the frat parties, we live it every day**

(Chorus)

**UCLA, where the legends rise
In the city of angels, under clear blue skies
From the classrooms to the afterparties
We're living life loud, making memories**

(Beat Drop)

(Verse 2)

**Late nights at Powell, grinding for that A
With the beat in my ears, I'm in my zone, no delay
From the lecture halls to the basketball court
Bruin Nation stands tall, we never fall short**

**Diverse faces, cultures, we're a melting pot
In this city of dreams, where the hustle never stops
From the Santa Monica Pier to the Hollywood sign
UCLA, we're on the grind, yeah, we're on the climb**

(Chorus)

UCLA, where the legends rise

**In the city of angels, under clear blue skies
From the classrooms to the afterparties
We're living life loud, making memories**

(Beat Drop)

(Chorus)

**UCLA, where the legends rise
In the city of angels, under clear blue skies
From the classrooms to the afterparties
We're living life loud, making memories**
