

## **Benevolent Sin - GORE**

**{intro}**

**Gore**

**Gore**

**Gore**

**Gore**

**{chorus}**

**Ain't no civil left in this war**

**Give up now or give more, more, more**

**Evil up in this core**

**God gone take me down to the floor, floor, floor**

**Let's get kicking down doors**

**When it acid rains let it pour, pour, pour**

**Everything's to die for**

**Yeah we built this city on gore, gore, gore**

**{post-chorus}**

**Gore**

**Gore**

**I said gore**

**Gore**

**Gore, gore**

**Gore**

**Yeah we built this city on gore, gore, gore**

**{verse}**

**Human beings never let us bĐµ**

**Change our thought processâ€“lobotomy**

**They takĐµ the brain and rape it**

**Mental sodomy**

**Give us comfort, take autonomy**

I'll turn to violence or to downing bottles  
It's a problem but it's how it's gotta be  
No one's ever really wanted me  
I am just another wannabe  
Give my life some fucking purpose  
Everybody thinks i'm worthless  
Try to fight it but i still keep marching to the furnace  
All that i earn from my struggle is nervous breaks  
A reputation that's a perversion of everything i make  
Every day  
Wake up identifying as my mistakes  
Too much to take  
Asked you to date but i can't spark feelings that reciprocate  
Was i too late?  
Was i too late?  
Wish my body would disintegrate  
You are not here so i'm not feeling great  
But if you were here i would just hesitate  
Cause i am the only person that i hate  
And i think i'm in love with you  
{bridge}  
Hear you explaining that there's better fish in the sea but i see that you  
look so pretty  
Everyone hopes that things start getting better for me but i ain't getting  
shit from your pity  
You said tomorrow holds so many reasons to be  
How's that help when today's so shitty?  
I didn't get a chance to build this city  
But those who did chose to build it on gore

{chorus}

Ain't no civil left in this war  
Give up now or give more, more, more

**Evil up in this core**

**{post-chorus}**

**Gore**

**Gore**

**Yeah we built this city on gore, gore, gore**

**Gore, gore**

**Built this city on gore, gore, gore**

**Gore**

**Yeah we built this city on gore, gore, gore, gore**
