

Chris Cohen - Damage

At the hospital

And the middle school

Anywhere you look

Someone's power over someone else

Protecting property but only love is precious

Only life is precious

Somebody's love wish I'd done again

Don't believe what they said

Don't believe what they said

You can't just throw someone away

There is another way

There is another way

{Sexy saxophone instrumental break}

Where the damage is done

Where the damage is done

This is the place for everyone

The place for everyone

The place for everyone
