Gothic Psychology - Bleed to Death

{verse 1}

I an trapped in a room

With no escape

And i have been waiting

But it's too late

There's so much going in

And i don't want to miss out

But it's just another day

Where i plot my own escape

{breakdown}

{verse 2}

Please just come back to me

Then you'll surely see

That we have been waiting

We can make the change

If you ever want to leave

Just take me with you

But please let go of the time

That we never spent, it's never meant to last

{outro}

CANT TAKE ANYMORE
