

Gothic Psychology - Holding On

(Verse 1)

In a haze of cigarette ash, I'm lost

**She whispers, "You're nothing," a painful cost Worthless and cheap, a soul
in despair Paralyzed by fear, caught in a snare**

(Verse 2)

Sick of waiting all night by your side

Shadows lengthen as emotions hide

Shaking in my skin, as the drugs take hold

A game played, a story untold

(Chorus)

Oh oh, oh oh oh

Oh oh, oh oh

Oh oh, oh oh oh

Oh oh, oh oh

(verse 3)

Stick you like a dagger in the night

Stealing oxygen, setting fears alight

In the fire's glow, I'm burning bright

Always alone, lost in the night

(verse 4)

Flies gather 'round, a buzzing crĐµw

In this world where I'm just like you

Can't see clĐµparly, it's a blurry view

Loneliness deepens, shadows grew

(Chorus)

Oh oh, oh oh oh

Oh oh, oh oh

Oh oh, oh oh oh

Oh oh, oh

(Bridge)

Tune out the world, just me and the void Whispers of love, but I'm paranoid

A pact to loneliness, in silence we vow

God's absent between me and the now

Tune out the world, just me and the void Whispers of love, but I'm paranoid

A pact to loneliness, in silence we vow

God's absent between me and the now

Tune out the world, just me and the void Whispers of love, but I'm paranoid

A pact to loneliness, in silence we vow

God's absent between me and the now

(Chorus)

Oh oh, oh oh oh

Oh oh, oh oh

Oh oh, oh oh oh

Oh oh, oh

Oh oh, oh oh oh

Oh oh, oh oh

Oh oh, oh oh oh

Oh oh, oh

(Outro)

Who's gonna mess with me now

Who's gonna mess with the sound

Who's gonna mess with me now

Who's gonna mess with the sound
