

odihu - every year is the same

Just wanna smile again

Just wanna make new friends

But it looks like its the end

Way too much time wasted

Nothing will ever changed

Every year is the same

My lifes so fucking lame

Wish i could end the game

Everyday life keeps on getting harder im exhausted

Imaginary friends inside my room i think ive lost it

I might kms i have a noose inside my closet

No one ever feels like helping everybodys watching
