**And the doors fly off the whip**

**Im walking on this shit**

**I just bust up in the booth**

**Man this blunt is charged up**

**Ya im smoking on some Jupiter**

**And im blowing out these Oort clouds**

**Every time I hop inside this bitch im going all out**

**Every time u call me on some shit u build a dirt mound**

**Once the worst said**

**There's ain't nothing we could talk about**

**I dont see the problem that u have**

**But its dead now**

**Talk about**

**There ain't shit to talk about**

**I just hit the window with some porcelain**

**Now hop out**

**Pop out**

**I need someone else that I could put down**

**Pull the mask down**

**Say it again oh they shook now**

**I feel I can't let it get the best of me**

Ya I feel all of my demons take a breath with me  
This shit full of sharks  
Some of them called friends  
Some of them called yours  
And they aiming for the heart like blow  
Jump when u hear this shit I turn the whole crowd  
AP somewhere on 4th going in get wild  
Ya I hit the stage it look like something from 8 mile  
I was just a child  
Shit look at me now  
Guess who got back  
Im already on my way  
Bitch im tryna hang 10  
Since im already on the wave  
Block bust  
Who the fuck in here is bitched out  
Not us  
Press the button  
And the doors fly off the whip  
Im walking on this shit  
Its wearing in just like chucks  
I just bust up in the booth  
Man this blunt is charged up

And im blowing out these Oort clouds
