

DaVan Official - Blessings

{hook}

Counted all my blessings and they all said zero

Why am such a fake thought i was a hero

I know i can do bad, do it by my lonely

Balling on everyone, shooting like i'm kobe

Counted all my blessings and they all said zero

Why am such a fake thought i was a hero

I know i can do bad, do it by my lonely

Balling on everyone, shooting like i'm kobe

{verse}

Yeah, open the door, let's see what you're really about

My heart in your hands

Please don't go anywhere

Baby, spread them legs for me

Baby, promise i'ma hit it deep oh yeah

Please don't make a sound

I can feel love in the air going around

Baby, can't lie, love you, i want this for life

If we can't have this for life, i'll have to die

{pre-chorus}

Woah

Never go

Hold you close

On dark days

She killed all the dark days

Only good days

She killed all the bad days

Only good days

Take it fast, don't go too slow
