

## **Kuh Ledesma - It Must Be You**

**{Verse 1}**

**Do you know how hard it is to write this song?  
But everyday I find my ways to play along  
Seems to me you were meant to be by my side  
How long must I hide to let this feeling through?**

**{Chorus}**

**It must be you, it must be you who is singing  
It must be you, my radio never seemed this good  
It must be you who makes me wake up in the middle of the night  
This little game is so insane, but it feels so right**

**{Verse 2}**

**There I go, touching things I'd say don't touch  
But then again, it's only you I really want so much  
How will this end when it has not even began?  
Should I melt away as a morning dew?**

**{Chorus}**

**It must be you, it must be you who is singing  
It must be you, my radio never seemed this good  
It must be you who makes me wake up in the middle of the night  
This little game is so insane, but it feels so right  
It must be you**

**{Instrumental Break}**

**{Chorus}**

**It must be you who makes me wake up in the middle of the night  
This little game is so insane, but it feels so right  
It must be you**
