

odihu - no more friends

**Crying out my heart again
Like im in a break up
Sun is coming up again but i dont wanna wake up
Every thing around me feel as if its changing
Im still sad but everyone is celebrating
And when im crying alone
I think bout you all the time
Wish you were here by my side
And didn't go suicide
But one day ill get better
I got me a new sweater
Cause its ur favorite color
It makes me wanna suffer
No more friends its that time again
The voices of her are stuck in my head
The scratches all over her neck
God i wish i was dead
God i wish i was dead**

@bloodsekai

**When you made that promise
You said you wouldn't break it
You broke it**

**If i had ur hand
Would u embrace it
Or let it go? u let it go
U let it go
And i went with it
Never knew love
Could ever finish**

**Is this the end
Or are you kidding?
If it's the end
Then u can call me dead**

**Now my hearts so shattered
All the pieces scattered
Tell me did it matter
Tell me did it matter**

**Now my hearts so shattered
All the pieces scattered
Tell me did it matter
Whys ur face got laughter?**
