Skiddelz - I See Dead People

{Intro}
(Whispered)
They're everywhere... Can you see them?
Shadows creeping in the night...

{Verse 1}
Creepin' through the darkness, midnight on the clock
Whispers in the silence, feel the cold, it's the shock
Voices in my head, echoes of the dead
Specters in the shadows, in the corners they tread
Eyes in the walls, see â€˜em staring at me
Figures in the mirror, who they trying to be?
Scratches on the floorboards, scrÐµams in the wind
Lost souls cryin', where do I bÐµgin?

{Pre-Chorus}
Black hooded figures, faces twisted and torn
In the land of nightmares, where horrors are born

{Chorus}
I see dead people, hauntin' my mind
I see dead people, in the dark they find
I see dead people, shadows on the wall
I see dead people, they're everywhere, they crawl

{Verse 2}
Blood on the ceiling, dripping down slow
Spirits in the attic, where the haunted winds blow
Footsteps in the hallway, coming closer still
Voices from the graveyard, echo through the chill
Phantom hands reaching, pulling me below

Into the abyss where the restless souls go

Can't escape the terror, it's a never-ending show

In the realm of the dead, where the cold winds blow

{Pre-Chorus}

Eyes like embers, burning through the night

Ghostly apparitions, lost in endless fright

{Chorus}

I see dead people, hauntin' my mind

I see dead people, in the dark they find

I see dead people, shadows on the wall

I see dead people, they're everywhere, they crawl

{Outro}

(Whispered)

Can you see them? They're all around youâ€¦

In the shadows, in the dark, they're waitingâ€¦

I see dead peopleâ€¦ they're waiting for you
