

## **Will Stetson - Plane Theory**

**{Verse 1}**

**We're flying high across the summer skyline  
I left vapor trails that vanish behind  
We'll go together hand in hand and break away  
I'd like  
To run away towards the east  
A secret kept for you and me  
The two of us together  
We will always be**

**{Pre Chorus}**

**Like this we're free to soar the sky  
To spread our wings and then we'll fly  
Just believe and never bother asking why  
Together you and I**

**{Chorus}**

**Just 5 doors down and 2 streets up  
We've met, sun shining high  
I know we are both connected by these happy days so bright  
So why not take my hand and you can stay here by my side  
A love that never dies, you and I**

**{Verse 2}**

**As night had fallen over all that we could see  
The constellations fell around us beautifully  
The stars around us we dance away the night  
I'd like to lace these shoes and run away to a secret place  
Just slip away and never bother asking why**

**{Pre Chorus}**

**Back then we always felt so free**

**The world was small, and we believed  
So what's the harm in calling back those simple dreams  
You smile brilliantly**

**{Chorus}**

**The fish that swims in second place will always dare to dream  
As it sings of love and carries on to shores it never sees  
So don't you run away just stay and find your place with me  
Under the open sky we believe**

**{Instrumental Break}**

**{Bridge}**

**I know that on the other side of this world made for us  
There is rising in the sky  
An ever brilliant shining sun  
Let's throw away these rules we've made  
We've all grown up enough  
I'll give to you my love**

**{Chorus}**

**Just 5 doors down and 2 streets up  
We've met, sun shining high  
I know we are both connected by these happy days so bright  
So why not take my hand and you can stay here by my side**

**{Outro}**

**Our secret is this love of mine**
