

Gotham City Syndicatez - Save Me

{Verse}

**Fairy tales and dreams collide
Until the tired old man cried
Dreaming of a better place
Maybe far away in outer space
We're a prisoner of our world
In the womb, we lay curled
The unknowing beyond our eyes
Revealed on top of lies**

{Pre-Chorus}

**Mother, I want you to hold me one more time
Before Batman ruined my prime
My youthful innocence ran so deep
Before being ruined by this awful creep**

{Chorus}

**Hold mĐµ one more time
Hold mĐµ one more time
Save me one last time
Save me one last time**

{Verse}

**The unbecoming, the unfair ruins
The backing stage-lights of fucked up humans
Batman seeks my body for pleasure
It's his disgraced guilty treasure
I miss playing at the park with friends
I miss dreaming on 'till the end
I miss smiling and laughing and living
Before being awakened by the unforgiving**

{Pre-Chorus}

**I want you to hold me one more time
Before Batman ruined my prime
My youthful innocence ran so deep
Before being ruined by this awful creep**

{Chorus}

**Hold me one more time
Hold me one more time
Save me one last time
Save me one last time**

{Bridge}
