Garden, Eden

{Pre-Chorus}

Batman, don't you let me go

Batman, I really want you to know

{Chorus}

I know when the world's all collide

You'll be standing there right by my side

I'm hoping that it won't be long

Cause my feelings are sorta strong

Looking at what's in the air

Hoping that you don't really care

The celestial is on my mind

And I wish we had some more time
