

TH3 AY3S - BetterLeaveeee

**When the storm clouds gather near
It's a sign that you should fear
Trouble knocking at your door
Better leave before it pours**

**In the darkness of the night
If you feel a sense of fright
Listen to your instincts clear
Better leave and have no fear**

**When the road ahead looks rough
And you've had more than enough
Take a step, don't look back now
Better leave, find your own way out**
