

Christian Barry - No Light

Why do i feel irrational?

Runnin' outta pills now it's time to rationale

Until the plug come back around

Until the plug come back around

Say you love me, all you wanna do is break

Ain't you had enough, i think you should take a break

You know that i love you only for your body shape

And not your pretty ugly face

You're nothing more than a mistake

(c major on this shit, yo!)

Yeah

Say there's a light at the end of the dark

But why does it feel like that light's really far

And why is there even no light from the start?

I'm tryna make it out so easily

Somebody get me off of these chains

This shit be gettin' scary thĐµse days, these days

ShĐµ broke my heart now i'm scattered like glass

I'll pick up the pieces, turn pain into class

Our love was a puzzle, she scattered the pieces

That shit was only a matter of minutes

Next thing i know, she's with one other nigga

The nigga whose dick ain't as big as my finger

He's usin' her ass but she can't see the picture

Yeah

Love doesn't last like a double-cartier

It's a long way from home but i couldn't give my last fuck

Gave me so much hope but girl, you were never there

I don't blame you for that but i still won't give my last fuck

Yeah, i'm sober again

These contemplations got me fadin' again

**I'm startin' to feel like i'm losin' it all cause i thought that i finally
found love again, like uh-**

No, i don't wanna wake

If this is a dream, i prefer it that way

**Don't wanna wake up to reality knowin' so well that these demons still won't
go away**

What did i do to deserve this treatment?

Why'd you fuck me up like that, girl tell me the reason

All the times you said you loved me back, you were just teasin'

Now you say you're sorry (shit), what's the meaning?

Everytime i need you, all i hear is that you busy

But when he says hi, you reply him with your titties

Got a bitch tellin' lies, i swear that ain't litty

Bitch you worse than medusa with a drenched up kitty

I regret all the moments that i called you my baby

I regret all the times i treated you like a lady

All girls are the same, i don't care what you're thinkin'

(what's the meaning?)

First off, nigga ain't famous, yeah

It's just a way to say they better than people, yeah

I don't really wanna walk through life alone

Feelings for love are faded

Cause she got me suicidal

Leavin' me for other guys

And now i gotta look alive

At times like this i look alive

(yeah)

Say there's a light at the end of the dark

But why does it feel like that light's really far?

And why is there even no light from the start?

I'm tryna make it out so easily

Somebody get me off of these chains

This shit be gettin' scary these days, these days

Say you love me, all you wanna do is break

Ain't you had enough, i think you should take a break

You know that i love you only for your body shape

And not your pretty ugly face

You're nothing more than a mistake
