

## Scavenger - Blood Red

Yeah my eyes blood red  
Turn the sky blood red  
Even in the bloodshed  
All the sheep still gotta be lead

I'm the Shepherd to those who are less  
I'm the horseman who still got his head  
I'm the apocalypse, there ain't no stopping it, everyone destined to be lying dead

7.62 laying under my bed, and I bet when I blast, I'll knock out his dreadlocks  
Heard what I said, don't mean nothing less, when we on the ground, choke him out in a headlock

Deadshot - daiquiri, aim for the head  
Don't think twice when I see red, when you living this life for so long, and you do it alone, ima never repay my debt  
Bitch

Solving my problems with this bottle  
Fuck your God and fuck your gospel  
Jesus left me out to rot, and rot I did, I'm like a fossil, all these pills  
got me not logical, might end up in a hospital  
Dealt with all of my opps, now all of my problems psychological

I'm legion, we are many  
I'm the few above the many  
I'm the one to crush all hope, I'm like a plane at the turn of the century,  
nobody sent me, no one except me, running this shit all on my own  
No one accept me, now I got plenty, motherfuckers acting like we weren't unknown
