

Ryan/ Blueryai - Zinklepop

****Verse 1****

I already admitted, thought y'all thought I was done
Yes, I'm gay, got boys on boys, they're seven foot tall, yes i'm the boy toy
But let's move past my sexuality, there's a story you need to see
King Zinklepop's been plotting, and he's coming for me

****Chorus****

Help me, help me, please, they're coming for me
Zinions worshipping, ready to take my body
I don't want to fight, but they won't let me be
Help me, help me, please, set my soul free

****Verse 2****

He's got a planet, thĐure's real lore you should know
Zinions are ready, with a herpes-filled show
I'm not talking 'bout the pleasure, it's the danger that's here
King Zinklepop and his army, they're my greatest fear

****Chorus****

Help me, help me, please, they're coming for me
Zinions worshipping, ready to take my body
I don't want to fight, but they won't let me be
Help me, help me, please, set my soul free

****Bridge****

I'll give you pleasure if you need it, just to make them go away
But what I need is protection, to see another day
They're not just after my body, they want to take my pride
So help me, help me, please, stand by my side

****Chorus****

Help me, help me, please, they're coming for me

**Zinions worshipping, ready to take my body
I don't want to fight, but they won't let me be
Help me, help me, please, set my soul free**

****Outro****

**Help me, help me, please, don't let them take my heart
Stand with me, protect me, don't let them tear me apart
King Zinklepop's army, they're closing in fast
Help me, help me, please, make this nightmare the past**
