

## **Ojax - The Business**

**We gotta keep the fire burning  
Come together, bring the passion alive  
And if we feel the world's upturnin'  
We gon' find a way to keep it alive  
You make me feel that heat  
When we're touchin' bodies  
I need this energy  
Come put your love on me  
I can't feel that rush  
I don't want it to stop  
Come give me what I want  
Come put your love on me  
If we don't get tomorrow  
At least we got tonight  
Forget about your worries  
Get lost inside your mind  
Hold on to this moment  
Come make me feel alive  
Boy, it's just you and I  
Can we get up, can we get down, let's get down to business  
Fill up my cup, pour it on out, tell me do you feel this  
Baby that's no stopping us now, I got you on my hit list  
Can we get up, can we get down, let's get down to business  
Can we get up? Can we get down? Let's get down to business  
She's got my cup, pour it on out, tell me, do you feel this?  
Baby, that's no stopping us now, I got you on my hit list  
Can we get up? Can we get down? Let's get down to business  
Boy, it's just you and I  
It's just you and I  
Boy, it's just you and I  
Boy, it's just you and I**
