

Ojax - When You Need It

**Say I don't need no reason just to get it fired up
You give me that feeling and you leave me tied up
You can get it if you need it
You can get it when you need it
Said I don't need no reason just to get it fired up
You give me that feeling when you leave me tied up
You can get it if you need it
Said you can get it when you need it
One, two
Just let a man breathe and just hush
So my mind could just see
So my mind don't erupt
At times I feel I can't get enough
But I sip a double cup and I spend a couple dubs
Sending out some love to my blood
To my girls, to my boys, to the homie up above
And no morÐµ time for big enough
To thesÐµ fakes who ain't around
When the time's getting rough
Say I don't have no reason just to get you fired up
You can be that deal and let me leave you tied up
You can get it if you need it
You can get it when you need it
You can get it when you need it
You say I don't need no reason just to get you fired up
You can be that villain when you leave me tied up
You can get it if you need it (you can get it when you need it)
'Cause you can get it when you need it (you can get it when you need it)
Need it
You can get it when you need it
Need it**

And get it when you need it

(Get it when you need it, need it)

Said you can get it when you need it

Need it

Said you can get it when you need it

Say, I don't need no reason just to get it fired up

You give me that feeling when you leave me tied up

You can get it if you need it

Said, you can get it when you need it

Say I don't need no reason just to get it fired up

You can be that villain when you leave me tied up

You can get it if you need it (get it when you need it)

You can get it when you need it (get it when you need it)

You say, "I don't need no reason just to get it fired up"

You give me that feeling when you leave me tied up

You can get it if you need it (get it when you need it)

You can get it when you need it (get it when you need it)

Need it

You can get it when you need it

Need it

And get it when you need it
