

vacant (Rapper) - Lost//alone

{chorus}

Are you really lost or scared to be alone?

'cause i know how things go

Is your mind a friend or foe?

Battle mine as long as i hold on to you

I fold for you, oh, my darling

I'm scarred, i'm hurting

Can you fix me before the morning?

I hope so

{verse}

I fell for you with the winter breeze

As cold as the ice on the ocean seas

A happy person, i wanted to be

Feeling like i wanna be six feet deep

But i dug too much for me

So here i stand, i know i made a leap

Why do i feel like this when you make me so happy?

It's confusing, i'm shattering my bones

In a crowded room i feel so alone

When people talk i shut up froze

My past is where i end up torn

{chorus}

Are you really lost or scared to be alone?

'cause i know how things go

Is your mind a friend or foe?

Battle mine as long as i hold on to you

I fold for you, oh, my darling

I'm scarred, i'm hurting

Can you fix me before the morning?

I hope so
