

YNKEUMALICE - HIGH TO THE MOON

**Faded for real
I'm high as fuck
Numbing the pain
Just to float Away
Take off in outer space
Like an astronaut**

**Float away I don't want to feel a thing
Num me now
She like fuck me now
Float away I don't want to feel a thing
Fuck pain
Fuck life
Numb it all
Float away get away from life
To get high.and high again**

**Faded for real
I'm high as fuck
Numbing the pain
Just to float Away
Take off in outer space
Like an astronaut**

**Astronaut
In the Galaxy
Say imma stay floating
Craving a good time
Hate me now
You can hate me now
I would care**

Say I wouldn't be friendly

I just float away

I just float away

I just float away
