

YNKEUMALICE - High

Get high

Get high

Get high

Let the world get high

Let the world get high

Let the world get high

If feel like we need the right high

We need to be more aware

I swear I know what I know

How life is when been high

Let the world get high

Let the world get high

Let the world get high

I want to get high

Legalize weed

I want to get high

Legalize weed

Get high

Get high

Get high
