

BENJI x Scarlett - WAITING

{Verse 1: Benji}

**I was waiting alone and so helpless
I was waiting for you to call
I've been feeling so low and so restless
I was waiting for you alone
And now I try to make up while you're leaving!
I'll be waiting for you if you need me
And now I try to move on
But I need you!
I'll be waiting for you
If you call me**

{Chorus: Benji}

**Say that you need me!
And tell me you want me!
You're what I've been needing!
Don't say that you're leaving now!
You know that I want you!
I break down when you're gone
And I've been stuck with this feeling
Let's admit we're both wrong!**

{Verse 2: Benji}

**I was walking by the place we met
Like I've done before
I was wishing you'd be waiting for me right by the door
I was thinking you'd be happy if you saw that I called
So I called and I called but you're over it!
And I'm replaying everything
A movie in my head
Overthinking little things**

**And stupid things that I said
Overdone apologies and waking up to sunsets
For so long for so long but you're over it!**

{Outro: Benji}

**Say that you need me!
And tell me you want me!
You're what I've been needing!
Don't say that you're leaving now!**

**Say that you need me!
And tell me you want me!
You're what I've been needing!
Don't say that you're leaving now!
You know that I want you!
I break down when you're gone
And I've been stuck with this feeling
Let's admit we're both wrong!**
